

Consent

Forældreansvarsloven (The Parental Responsibility Act) was passed in Folketinget in 2007 and describes rules and obligations in this area. It says that the custodial parent can make many extensive decisions on behalf of the child, but that not everything can be done without the consent of the non-custodial parent.

Consent from both the custodial parent and the non-custodial parent is required for testing and/or therapy with private-practice psychologists.

I consent with my name and signature that my child _____
may undergo testing and/or therapy with Psychologist Dea Franck. I can withdraw this consent at any time.

Date, signature
